**McLEAN COUNTY REGIONAL PLANNING COMMISSION
BLOOMINGTON-NORMAL URBANIZED AREA**

RESOLUTION

June 28, 2019

The McLean County Regional Planning Commission Transportation Policy Committee hereby approves the Fiscal Years 2019 - 2023 Transportation Improvement Program. The Annual Element of the Transportation Improvement Program includes projects for all transportation modes in the Bloomington-Normal Urbanized Area for the period July 1, 2018 through June 30, 2019.

The planning process carried out by the McLean County Regional Planning Commission, under the direction of the Policy Committee and the Technical Committee of the Metropolitan Planning Organization (MPO) of the Bloomington-Normal Urbanized Area in cooperation with the Illinois Department of Transportation, is being carried on in conformance with the applicable requirements of:

1. 23 U.S.C. 134, Section 8 of the Urban Mass Transportation Act (49 U.S.C. 1607); and
2. Sections 174 and 176 (c) and (d) of the Clean Air Act (42 U.S.C. 7504, 7506 c and d).
3. Sections 450.334 (a) (1) - (5).

The MPO planning process is self-certified and is comprehensive, coordinated, and continuing.

Carl Teichman – MCRPC

Tari Renner – City of Bloomington

Chris Koos – Town of Normal

William Caisley – McLean County

Scott Neihart – IDOT Region 3, District 5

METROPOLITAN TRANSPORTATION PLANNING PROCESS SELF-CERTIFICATION

In accordance with 23 CFR 450.336 (a), the Illinois Department of Transportation and the McLean County Regional Planning Commission, Metropolitan Planning Organization for the Bloomington-Normal urbanized area, hereby certify the metropolitan transportation planning process is being carried out in accordance with all applicable requirements including:

1. 23 U.S.C. 134, 49 U.S.C. 5303, and 23 CFR part 450.336(a);
2. Sections 174 and 176 (c) and (d) of the Clean Air Act, as amended [42 U.S.C. 7504, 7506 (c) and (d) and 40 CFR part 93;
3. Title Vi of the Civil Rights Act of 1964, as amended [42 U.S.C. 2000d-1] and 49 CFR part 21;
4. 49 U.S.C. 5332 prohibiting discrimination on the basis of race, color, religion, national origin, sex or age in employment or business opportunity;
5. Section 1101 (b) of the FAST Act (Pub. L. 114-357) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;
6. 23 CFR part 230 regarding the implementation of an equal employment opportunity program on federal and federal-aid highway construction contracts;
7. The provisions of the American with Disabilities Act (ADA) of 1990 (42 U.S.C. 12101 *et seq*) and 49 CFR parts 27, 37 38;
8. The Older Americans Act, as amended (42 USC 6101) prohibiting discrimination on the basis of age in programs or activities receiving federal financial assistance;
9. 23 U.S.C. 324 regarding the prohibition against discrimination based on gender, and;
10. The Rehabilitation Act of 1973 (29 USC 794, §504) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

Preamble

Transportation Improvement Program, FY 2020 - 2024 Bloomington-Normal Urbanized Area

The Transportation Improvement Program (TIP) is a five-year record of road, bicycle and pedestrian transportation projects and transit capital and operations projects located within the 25-Year Planning Boundary of the Bloomington-Normal Urbanized Area¹. Road, trail and other facility information is provided by the following jurisdictions; the State of Illinois through IDOT District 5, the County of McLean, the City of Bloomington, and the Town of Normal. Public Transit information is provided by Connect Transit, SHOW BUS, Marcfirst, Advocate BroMenn Adult Day Services, the YWCA of McLean County and Homes of Hope. The five one-year periods reported in the TIP coincide with the State of Illinois fiscal year, which in any calendar year begins on July 1 and terminates on June 30.

The McLean County Regional Planning Commission is the designated Metropolitan Planning Organization (MPO) for the Bloomington-Normal Urbanized Area. As reported following a Federal Highway Administration program review in 2016, MCRPC complies with the requirements for self-certification. During 2017 and 2018, MCRPC adopted BN Mobile: Long-Range Metropolitan Transportation Plan 2045, updated the MPO Cooperative Agreement and the MCRPC By-Laws. As of September 2018, MCRPC adopted an updated Title VI Plan, which incorporates the Public Participation Plan for Transportation and the Limited English Proficiency Assistance Plan.

The TIP is prepared by the staff of the McLean County Regional Planning Commission in cooperation with the Federal Highway Administration, the Federal Transit Administration, the Illinois Department of Transportation, the City of Bloomington, the Town of Normal, McLean County, the Bloomington-Normal Airport Authority, Connect Transit, and other urban and regional transit service providers.

The MPO provides the forum for regional comprehensive, coordinated and continuing planning and programming for the urbanized area. All projects included in this TIP have been reviewed for consistency with the adopted Long-Range Metropolitan Transportation Plan for the Bloomington-Normal Urbanized area. All significant federally-funded projects were found to be consistent with the plan. The project selection process conducted by the MPO Technical Committee has considered public safety, congestion, regional and local needs, and maintenance of the system, as well as the goals, strategies and tasks delineated in the Long-Range Metropolitan

¹ see Appendix 4 for a map and description of the MPA boundary lines.

Transportation Plan 2045. The TIP has been reviewed and approved by Technical and Policy committees, and by the Regional Planning Commission.

The existing transportation system within the MPO planning boundaries is being adequately operated and maintained with the revenue sources that are provided through federal, state and local jurisdictions. The 2020 - 2024 Transportation Improvement Program is fiscally constrained. Funding estimates are based on anticipated state, federal, and local sources for the region. Jurisdictions involved in TIP preparation maintain a realistic level of program flexibility. Local and regional priorities are subject to change during the time frame represented by the TIP.

As prescribed in 23 CFR 450.334 (a), the TIP:

- prioritizes transportation projects into five one-year periods;
- includes all projects utilizing Title 23 funds, and;
- includes all regionally significant projects that require Federal Highway Administration and/or Federal Transit Administration approval.

For informational purposes, the TIP includes all local and state projects programmed for roads functionally classified as collectors or arterials, and local projects planned for non-classified streets and roads.

The TIP has been prepared in accordance with the adopted Public Participation Statement of the MPO (see Appendix 7). Reasonable notice of the public comment period and the public hearing has been provided. The draft TIP was made available for public comment for a thirty-day period prior to its adoption and the TIP was presented at a public hearing conducted by the Technical Committee. Appendixes 8 through 10 include:

- the summary of the comments submitted regarding the TIP;
- the minutes of the MPO Policy and Technical Committee meetings where the comments were considered; and,
- the advertisement of the public hearing and the public comment period.

Title VI of the Civil Rights Act (42 U.S.C. 2000-1) states that:

“No person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program, or activity receiving Federal financial assistance.”

The Executive Order on Environmental Justice further amplifies Title VI by providing that “each Federal agency shall make achieving environmental justice part of its mission by identifying and addressing, as appropriate, disproportionately high and

adverse human health or environmental effects of its programs, policies, and activities on minority populations and low-income populations.” The Executive Order

Implementation of Title VI is conducted in part through the McLean County Regional Planning Commission Transportation Advisory Committee (TAC). The TAC is a collaborative coalition of diverse agencies and organizations that address ways in which local government and transportation service providers can cooperate to best utilize resources. The majority of the public agencies involved are human service organizations that serve persons that are part of a minority group, persons with disabilities, seniors and persons with low incomes pursuant to standards established by the U.S. Department of Housing and Urban Development. The Committee engages in continuous outreach efforts to involve underserved populations in the urbanized area.

The MCRPC’s transportation planner serves as administrative chair and distributes meeting records to an extended list of organizations. The Committee reviews the current transportation needs of the populations represented and served by committee members. The committee provides letters of support for applications to pursue funding for transportation programs that target underserved populations.

MCRPC transportation staff serve as regional coordinators for the five-county Region Six Human Services Transportation committee, included the administration and updating of the regional plan, and mobility management and other tasks. Additional outreach to underserved communities takes place through direct engagement with and participation in the work of community organizations, neighborhood groups, advocacy groups working on behalf of seniors, minority groups, including those whose members may have limited English proficiency, seniors, people with disabilities, low-income households and others. The 2018 Public Participation Plan, included in the MCRPC 2018 Title VI Plan, offers greater detail on public outreach, and engagement in the transportation planning process.

Each September the McLean County Regional Planning Commission issued a report on federally obligated projects for the prior Federal fiscal year. The reports, titled *Federal Transportation Investment in the Bloomington – Normal Urbanized Area* are available for review on the Commission’s website at www.mcplan.org.

Project Selection and Management

Section 1: Project Prioritization, Selection and Approval

Early in each calendar year the McLean County Regional Planning Commission (MCRPC) initiates the update of the Transportation Improvement Program (TIP), the five-year compilation of transportation projects programmed by the participants in the metropolitan transportation planning process. These include projects to be undertaken by the City of Bloomington, the Town of Normal, McLean County and the Illinois Department of Transportation, as well as the programmed activities of urban area transit providers, both public transit and that conducted non-profit agencies.

MCRPC does not mandate or impose the selection of specific projects to the participating governments and agencies. Each participant develops a program of projects consistent with its goals and financial resources, and adopts it through its budget approval process. In most cases, that process includes public involvement through publication of proposed budgets and capital investments, public meetings and hearings, and votes to approve the program through legislative bodies or governing boards. MCRPC encourages the MPO participants' engagement in a continuing dialogue with MCRPC, District 5 staff and one another to develop the most effective regional program possible with the resources available.

The transportation projects thus adopted by local jurisdictions and agencies are brought together in the Transportation Improvement Program. To be included in the TIP, each project listing must have a defined cost for implementation, and identify the sources of funding required to meet that cost. In addition, each jurisdiction is tasked with determining Year-of-Expenditure costs for each project.

This is done to reflect as closely as possible the true cost at the time of implementation, through calculation of anticipated cost changes based on its financial status, assumptions and past experience. These modifications of estimated cost may also consider other factors known to be relevant by the local staff.

The selection process begins in the local jurisdictions, but evaluation of projects ***as elements of the overall transportation improvement program*** continues through the deliberation of the Transportation Technical and Policy Committees.

Specifically, through the prioritization process described below on pages 2-4, each project is considered with respect to the contribution it is expected to make to the achievement of the goals, actions and state performance targets adopted by the MCRPC Transportation Policy Committee, or identified in the currently adopted Long Range Metropolitan

Transportation Plan¹. The performance metrics defined in the LRMTTP either directly cite or are amended to include the state target once it has been established and adopted by the MPO committees.

As of the effective date of this TIP, MCRPC has adopted the safety targets promulgated by the Illinois Department of Transportation. The adoption of the state targets has prompted discussion with local staff as well as IDOT and FHWA staff regarding the means by which individual MPOs can be responsive to the intent of the targets, while understanding that the specific numerical or percentage targets statewide do not scale to local circumstances.

For example, where the state might identify a year-to-year reduction of fatalities of 4%, for an MPO where there are few fatal crashes, that percentage reduction is not useful for analysis. If the local annual fatalities equal five individuals, the target reduction equals two-tenths of a person. This issue of scalability is further complicated when fatalities or serious injuries result from crashes on roads controlled by the state rather than local jurisdictions. In these cases, the MPO's ability to impact the statewide crash rate or its impact on fatalities or serious injuries is at best very limited.

To attack the safety targets directly, MCRPC has recently obtained State Planning & Research funding for the development of a Vision Zero Action Plan, addressing the State goal of reducing and then eliminating crash fatalities, and also responsive to goals identified in the MCRPC Long Range Metropolitan Transportation Plan 2045 (LRMTTP). This plan will define a group of projects to pursue in the urbanized area and throughout the county, prioritized through an analysis of measurable safety impacts. Specifically, the project will draw from all available data to analyze locations controlled by local jurisdictions and the state to identify those most in need of modification to reduce fatalities and serious injuries.

Responding to the high incidence of crashes resulting from distracted or impaired drivers, the Vision Zero project also includes an education function using locally produced public service announcements and social media outreach regarding distracted driving. The project will form the basis for creating a Vision Zero oversight committee for continued work on these issues. The Vision Zero plan and related projects will be amended into the TIP once contracts are secured and executed.

In the TIP projects list beginning on page 29, projects with a specific focus on safety for system users are indicated in the project description. These projects include bridge and

¹ Pursuant to the following citations:

23 CFR 450.326 - (c) *The TIP shall be designed such that once implemented, it makes progress toward achieving the performance targets established under §450.306(d).*

23 CFR 450.326 - (d) *The TIP shall include, to the maximum extent practicable, a description of the anticipated effect of the TIP toward achieving the performance targets identified in the metropolitan transportation plan, linking investment priorities to those performance targets.*

culvert repair and reconstruction, improvements to street lighting, sidewalk and ADA ramp improvements, and others. This group of projects also includes an illustrative project in Uptown Normal, for stages of the construction of a below-grade plaza with facilities for pedestrians and bicycle users, with free flow under the railroad at Uptown Station. This is a substantial investment in pedestrian and bicycle safety, will avoid a majority of the potential at-grade interactions with rail traffic, and will serve as the gateway to the Uptown 2.0 redevelopment area.

In 2018, MCRPC staff and the Technical Committee developed and approved the project prioritization process for use in evaluating **all projects eligible for inclusion in the TIP which employ any form of federal funding**. The evaluation forms are included in this section of the TIP, following the annual project list tables.

The prioritization evaluation is based on three aspects of each project; relationship to a focus area identified in the LRMTTP project components indicative of focus on key goals and strategies of the LRMTTP 2045, and project readiness within the framework of the five-year TIP timeline. A sample of the scoring sheet used is shown on page 4. This process is not required of IDOT District 5, as the District program is not subject to MPO review.

The form refers to another element of the evaluation, wherein the jurisdiction proposing the project identifies strategies and tasks within each focus area that are addressed by the project purpose and anticipated outcome. In this way each federally funded project can be tracked with the plan elements it is expected to affect. In addition, project impact can be considered in the context of the performance measures established for the goals, strategies and tasks.

		MCRPC Federally Funded Project Scoring Formula					
		Data					
		This form required only for projects using Federal funding					
		Jurisdiction					
		Project ID #					
		in TIP FY:					
		Phase					
8 points per focus area	System Preservation	Mobility, Access & Choice	Health & Safety	Sustainable Transportation	Freight	<i>scoring example</i>	
Project Type/Focus Area		8	8			16	Focus Area total points (max. 40)
Project Components - 10 points per component							
Complete Streets	Complete Streets elements, including alt modes [*]					10	
Vision Zero	Advances Vision Zero and/or IDOT safety targets [†]					10	
Environmental Impact	Creates improved environmental sustainability						
Regional Significance	Has impact beyond its native jurisdiction						
Equity in Access	Addresses inequity in transportation system [‡]					10	
						30	Component total points (max. 50)
Type "readiness points" in the indicated green box according to which fiscal year in the 5-year program the project appears; 10 points for program year 1, 8 for year 2, 6 for year 3, 4 for year 4 and 2 for year 5.							
Project Readiness						10	Readiness points (max. 10)
						56	Project Total points (max. 100)
On the next worksheet, labeled StrategyMeasure, enter the following information:							
1 For each focus area chosen, list the strategies and/or tasks related to that focus area that will be used in implementing the project.							
2 List the performance measures for each strategy, wherein data will be available to determine the degree of progress made on achieving the target resulting from the project.							
3 Keep in mind that the strategies should also be consistent with the project components you have identified as relevant to the project.							
[*] See LRMTTP, strategy 2.2, pp.74 and following							
[†] See LRMTTP, Chapter 5, §3, strategy 3.1, pp. 86 and following							
[‡] See Equity portions of strategies and performance measures in LRMTTP, Chapters 5 & 6							

Most TIP documents incorporate only those projects which use federal transportation funding, but the metropolitan transportation planning participants in our area elect to include all projects derived from their budget development processes, to provide the public with a complete picture of the levels of local, state and federal funding supporting the maintenance and improvement of the transportation network.

Project selection by the Illinois Department of Transportation is managed by the staff of IDOT District 5, which covers an area that includes several metropolitan planning organizations (MPOs) in addition to the McLean County Regional Planning Commission. At the District level, the state program for allocation of federal transportation funding is determined based on factors such as project readiness, matching funding and budget restrictions. Some federal and state funding is allocated through centrally administered IDOT grant programs, such as the Illinois Transportation Enhancement Program through which the state allocates federal funds for transportation alternatives, and the Downstate Operating Assistance program in which state funds are allocated to transit provides in small urban areas and rural regions.

MCRPC Planning Projects

In addition to the local government and IDOT projects listed beginning on page 27, MCRPC will be conducting planning studies in support of initiatives identified in the Long-Range Metropolitan Transportation Plan adopted in November 2017. They include:

Vision Zero Action Plan	SPR-RSA	\$90,000
-------------------------	---------	----------

This project is designed to implement strategies for Goal 3 of the LRMTTP, specifically the implementation of the Vision Zero approach to crash, injury and fatality reduction, and to establish Technical Oversight and Advisory committees. The project is funded by the State Planning & Research program, which will provide \$72,000 of the total project cost.

Rural-Urban Access Study	RSA
--------------------------	-----

This project will be jointly pursued by MCRPC, Connect Transit and SHOW BUS. Using new spatial analysis tools, this project will examine rural-urban accessibility and potential points of system integration, data development and validation, and testing of the analysis process for use in the remaining Region 6 counties.

East Side Highway Monitoring Plan	RSA
-----------------------------------	-----

As indicated in the Environmental Assessment submitted to the Federal Highway Administration in 2017, and reflected in the LRMTTP, MCRPC will collect data and provide reports on the status of locations identified in the EA as critical to taking further steps with respect to the East Side Highway project based on traffic volume, and other criteria.

Section 2: Managing Amendments and Administrative Modifications

Procedures

Once adopted, the TIP requires ongoing maintenance as projects develop throughout the fiscal year. The TIP amendment process helps to balance the need to keep projects on schedule, while still providing fiscal constraint and a public input process. This section of the annual TIP establishes the procedures MCRPC staff and member agencies use in revising the MCRPC TIP.

The procedures described in this document for amending the multiyear TIP have been agreed upon by MCRPC member agencies through approval of the TIP document, and are consistent with federal transportation planning regulation and legislation. The procedures are meant to accommodate complex project changes or additions, as well as permitting a simplified procedure for smaller administrative changes. The process may be changed at the discretion of the Technical and Policy committees pursuant to applicable regulations.

Background

Titles 23 and 49 of the United States Code require that every MPO produce a multi-year TIP that includes all projects which seek federal funding and other regionally significant transportation projects. The MCRPC TIP is updated annually and covers a five-year period. The Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) will only approve projects and grants for projects that are programmed into the current approved TIP. During a given fiscal year, MCRPC staff may amend the current TIP document to include new projects not originally programmed into a fiscal year. These revisions must maintain year-to-year fiscal constraint for the five years of the TIP. The project added to the TIP by amendment must also be in conformity with the approved urbanized area Long Range Transportation Plan.

Federal Transportation Planning Regulations in Title 23 provide the MPO with the discretion to create and approve alternative procedures to more effectively manage actions on the TIP that may occur during a given fiscal year. The regulations require the approval of any alternative procedures developed by the MPO, and that these procedures are documented in the annual TIP. This document lists the procedures for the MCRPC urbanized area regulating TIP amendments and administrative modifications that will be used to revise the TIP in accordance with federal regulations. There are two primary types of changes that can be made to the TIP: Administrative Modifications and Amendments. The policies and procedures for each process are outlined below.

Administrative Modification

An Administrative Modification is a TIP revision consisting of minor changes to project scope or phase costs, minor changes in project funding sources, minor changes to a project description, and the movement of an included project among fiscal years. An Administrative Modification is a revision that does not require public input, confirmation of fiscal constraint, or a formal approval by the Technical and Policy Committees. The following thresholds were established to determine whether an Administrative Modification is possible for a submitted TIP revision:

1. Modification of a TIP project description, as long as the modification does not significantly change the project's intended function, nature, costs or environmental impact.
2. TIP Project Year of Expenditure federal aid cost changes that do not cause a change in funds allocated by the participating federal agencies exceeding the following thresholds for the Total TIP Project Cost (which may not be the same as the total project cost). The chart below sets out the range of project costs and the percentage change in funding below which an administrative modification is appropriate.

Administrative Modification Cost Change Limits	
Total TIP Project Cost	Percent Change in Total TIP Project Cost
\$0 - \$249,999	25%
\$250,000 - \$999,999	20%
\$1,000,000 - \$2,999,999	15%
\$3,000,000+	10% (capped at \$5 million)

3. Increases or decreases in federal or state funding or in local matches as long as the total cost meets the cost change limits.
4. Changes in federal project funding sources that do not alter the total federal project cost.
5. Changes in state and local funding sources that do not alter the fiscal constraint of the project.
6. Moving a project from future years of the TIP to the current fiscal year, or vice versa, as long as the project was in the originally approved TIP or was included through the TIP amendment process.
7. A split or combination of individually listed projects; as long as cost, schedule, and scope remain unchanged. The addition or deletion of project phases from a TIP Project as long as the funding amounts for the new line items stay within the cost

change limits and the new line item does not result in a significant change to the original intent of the TIP Project.²

8. Changes to the lead agency identified for a TIP Project or TIP Project Phase.
9. Additions, deletions, or corrections to projects listed in the Illustrative Table.
10. Data entry or typographical errors.

Any agency requesting an Administrative Modification to a TIP Project or project phase must submit a description of the proposed changes to MCRPC staff including:

- Scope
- A project/projects phase description
- Cost changes, including cost by agency if more than one agency is involved
- Fund type

MPO-approved Administrative Modifications will be published online separately from TIP amendments. Staff will provide a summary of modifications made at the next Technical and Policy meetings following the administrative modification. Any Administrative Modifications will be forwarded to any agency involved with the modification and to IDOT.

Amendments

A TIP Amendment refers to any major change to a TIP project, of sufficient scope that there must be an amendment. These may include the addition or deletion of a project, a major change in project cost, or a major change in design concept or project scope (e.g., changing project termini). The movement of a project from the Illustrative Table to a fiscal year in the TIP will require a TIP Amendment; however, changes to projects in the Illustrative Table will remain an Administrative Modification. A TIP Amendment requires a public meeting to confirm continued fiscal constraint and provide the public with the opportunity to provide input. The following changes will be considered grounds for a TIP Amendment:

1. Addition or deletion of a project (regardless of cost, except for project phases that are in accordance with the Administrative Modification thresholds).
2. Addition or deletion of a new project phase that is beyond the thresholds set for Administrative Modification.
3. Major changes to the project scope.
4. Major changes to the amount of federal aid funding for project costs exceeding the thresholds set for Administrative Modification.

² If an approved TIP Project is listed without a right-of-way phase (ROW), and an incidental ROW need is discovered during the design phase, a ROW purchase can be authorized under either the design or construction phase without amending the TIP. "Incidental" ROW is the purchase of a minor parcel(s) (including utility relocation) that does not involve the taking of any environmentally sensitive land or residential/commercial structure.

5. Addition of a ROW phase that includes the taking of environmentally sensitive lands or residential/commercial structures.

Any agency requesting a TIP Amendment must submit a detailed description of the proposed changes to MCRPC staff including:

- A full project/projects phase description including termini or project location
- Cost changes, including costs by agency if more than one is involved
- Fund type
- Project completion status
- Lead agency and any other agencies involved

TIP Amendments are subject to the approval of the MCRPC Technical and Policy Committees. During these meetings, the public will have the opportunity to comment on the proposed amendment(s). Once approved, the amendments will be forwarded to IDOT. As with Administrative Modifications, any TIP Amendment will be posted online under a separate heading for amendments.

On rare occasions a participating agency may discover that a pending project requires an amendment before the next scheduled transportation committee meetings. In these instances, MCRPC staff will make every effort to accommodate these circumstances while adhering to the requirements of MPO procedures and the Illinois Open Meetings Act.

Section 3: Advance Construction Funding

The state may also take advantage of Advance Construction (AC), a cash flow tool (not additional funding) used by IDOT that allows the preservation of a project's federal eligibility and quickly obligate federal obligation limitation ceiling as additional ceiling becomes available. Projects that are "ACed" (i.e., that employ the advance construction tool) are all eligible for federal reimbursement (after being converted) and are authorized by FHWA in the same manner as all federally funded projects. (Note – as in regular federally funded projects, no work may begin before FHWA authorizes the AC action on a project.) When a project is ACed, IDOT essentially fronts the funds and does not seek federal reimbursement until a later date (after conversion). If a locally sponsored project is ACed, the project sponsor does not notice any difference from a regular federally funded project.

Projects are ACed for a number of reasons:

- Insufficient Obligation Limitation. At the time project authorization is being sought from FHWA, there are more projects eligible for federal funding than the amount of obligation limitation IDOT has available;
- Insufficient Apportionment. At the time project authorization is being sought from FHWA, there are more projects eligible for a given federal fund type (NHPP, STP, etc.) than the amount of unobligated apportionments for that fund type;
- Discretionary Funds Allocation. On rare occasions a project is put on AC status when an allocation of funds from a discretionary program has not occurred, but it is certain will occur. In this case, the project remains in AC status only until the allocation occurs, generally a short amount of time.

Ordinarily, the first two events tend to happen closer to the end of the federal fiscal year. Essentially, individual projects are ACed because of timing issues.

Taking a project off AC status is known as an AC Conversion in the process language of the Federal Highway Administration. This requires a combination of obligation limitation, apportionment balances, and FHWA approval action to change the status of the project to regular federal funds. The request to convert funds can occur for a number of reasons:

- August Redistribution. Every year, the FHWA reallocates obligation limitation from those States that cannot use all of their ceiling to those that can demonstrate (a) that they can use additional ceiling and (b) that additional ceiling can be obligated before the end of the federal fiscal year. Having an inventory of projects on AC status allows the State to meet both conditions and capture additional federal funds.
- Road Fund Cash Flow. By law, all federal reimbursements to IDOT for spending are deposited into the Road Fund. If the available balance in the Road Fund fell to levels

that would jeopardize the its ability to pay all of IDOT's bills on time, it would be possible—provided there is sufficient unobligated ceiling and program apportionments—to convert one or more projects from AC status, thereby capturing all of the federal reimbursement associated with spending to date on that project/those projects and placing that money in the Road Fund in a very short time frame. The key to making this work is to have projects on AC status.

- Subsequent Allocation of Discretionary Funds. As noted above, on rare occasions an allocation of funds from a discretionary program do not occur prior to the need to implement the project and the project is put on AC status by IDOT. In those cases, once the allocation has occurred, the project is converted to Current Funded status.

The Illinois Department of Transportation has instituted a process to identify projects using advance construction in their funding profile, and to track the use of the tool and the eventual conversion to regular federal funds. IDOT staff will provide notification of the advance construction funding status to metropolitan planning organizations such as the McLean County Regional Planning Commission. In turn, the MPOs will execute administrative modifications to the project information in the Transportation Improvement Program to reflect the change in status and the funding associated with the change.

In this TIP document, these changes and administrative modifications will be recorded and revised in Appendix Four; MPO participants will be advised of modifications by MCRPC staff, and revisions of Appendix Ten will be posted on the MCRPC website page for the current Transportation Improvement Program.

Section 4: East Side Highway Environmental Assessment East Side Highway Monitoring Plan

The Transportation Improvement Program does not currently include a funded project related to the East Side Highway studies conducted earlier in the decade. The Environmental Assessment conducted with respect to the project is complete and has been submitted to the Federal Highway Administration for review and decision. The Illinois Division of FHWA has advised that the project meets the criteria for “unusual circumstances,” allowing FHWA to render a NEPA decision on the Environmental Assessment, without a related project included in the MPO or Statewide TIP.

Beginning in FY 2018, MCRPC will carry out the continuing analysis of project status and community readiness described in the Monitoring Plan incorporated in the Environmental Assessment. MCRPC will prepare and distribute periodic reports regarding prevailing conditions in the urban area in connection with the East Side Highway. The costs associated with this work are incorporated in the MCRPC annual work program, and will continue indefinitely, until there is data to suggest that the EA be revisited, or that further consideration of the project is no longer consistent with the trends and growth patterns in the community.

ILLUSTRATIVE PROJECTS

Projects identified in the five-year TIP document are required to be fiscally constrained; that is, for each project, adequate funding from whatever sources are used must be specified. This ensures that the program as set forth can be implemented as listed. Should there be changes in a project, they can be reflected in an amendment or administrative modification.

On occasion, our participating jurisdictions wish to provide additional context by identifying projects for which funding has not yet been confirmed, and thus not fiscally constrained. These may be listed as “illustrative projects,” indicating that while they are not yet eligible for inclusion in the TIP projects overall, they are activities that the participants wish to pursue. Should funding become available, these projects can be incorporated into the main project list by amendment to the TIP.

For 2020-2024 projects: **ORANGE** shaded projects - **illustrative** in 2020-2024 TIP (*see page 42 for description*)

Applying the Project Selection Process

The Regional Selection Process

Each of the three local governments participating in the MPO, Bloomington, Normal and McLean County, conducts an annual budget development process in which senior staff project program needs and costs, and Councils and the County Board review and adopt the program elements they deem necessary.

This budget information, along with the state program for District 5, is the basis for the annual update of the Transportation Improvement Program. Each of the local governments is tasked with coordinating between their TIP projects and whatever related instruments their jurisdiction has adopted, such as a capital improvement plan. From these materials MCRPC staff compiles the draft five-year road, bridge, street and trail program in the final TIP document.

For the TIP update beginning with program year FY 2019, the MCRPC Technical and Policy committees adopted a priority review process applicable to projects that utilize federal funds. These projects are a small percentage of the numerical total of projects, but due to the inclusion of federal funding, often represent a notable portion of the total program cost.

The prioritization evaluation is based on three aspects of each project:

1. Relationship to a focus area identified in the MCRPC Long Range Transportation Plan 2045;
2. Project components indicative of focus on key goals and strategies of the LRTP 2015, and;
3. Project readiness within the framework of the five-year TIP timeline.

The form refers to another element of the evaluation, in which each jurisdiction identifies strategies and tasks within each focus area that are addressed by its projects, with respect to purpose and anticipated outcome. In this way each federally funded project can be tracked with the plan elements it is expected to affect. In addition, project impact can be considered in the context of the performance measures established for the goals, strategies and tasks.

A sample of the scoring sheet used is shown on page 2. This process is not required of IDOT District 5, as the District program of projects is not subject to MPO review. In this initial year of the prioritization process, the MCRPC Technical Committee will conduct an in-depth assessment of the prioritization process in practice. This will include a review of the associations in each projects to performance measures adopted or amended into the LRTP. Any revisions the Committee decides to include will be adopted before the development of the FY 2020-2024 TIP document.

A summary of the project scoring appears below, and the scoring sheets follow.

Summarized Scoring Results for Federally Funded Projects - FY 2020 – 2024

Project			Scoring			
Entity	I.D No.	TIP Year	Type/Focus	Component	Readiness	Total
MC	MC-6	2022	24	10	6	40

MCRPC Federally Funded Project Scoring Formula Data

This form required only for projects using Federal funding

Jurisdiction	McLean County
Project ID #	MC-6
in TIP FY:	2022
Phase	Construction

	System Preservation	Mobility, Access & Choice	Health & Safety	Sustainable Transportation	Freight		
<i>8 points per focus area</i>							
Project Type/Focus Area	8			8	8	24	Focus Area total points (max. 40)
<i>Project Components - 10 points per component</i>							
Complete Streets	Complete Streets elements, including all modes*						
Vision Zero	Advances Vision Zero and/or IDOT safety targets†						
Environmental Impact	Creates improved environmental sustainability						
Regional Significance	Has impact beyond its native jurisdiction					10	
Equity in Access	Addresses inequity in transportation system‡						
						10	Component total points (max. 50)
Type "readiness points" in the indicated green box according to which fiscal year in the 5-year program the project appears; 10 points for program year 1, 8 for year 2, 6 for year 3, 4 for year 4 and 2 for year 5.							
Project Readiness						6	Readiness points (max. 10)
						40	Project Total points (max. 100)

On the next worksheet, labeled **StrategyMeasure**, enter the following information:

- 1 For each focus area chosen, list the strategies and/or tasks related to that focus area that will be used in implementing the project.
- 2 List the performance measures for each strategy, wherein data will be available to determine the degree of progress made on achieving the target resulting from the project.
- 3 Keep in mind that the strategies should also be consistent with the project components you have identified as relevant to the project.

Transportation Improvement Program Fiscal Years 2020- 2024

Transit Projects for the Bloomington-Normal Urbanized Area

Transit Program

The Bloomington-Normal urbanized area is served by two public transit providers and several agencies and institutions that provide transportation services to program recipients and/or the general public. There is continuing cooperation between the public providers and the agencies, with many of the latter relying on the public transit agencies to supplement their transportation resources. Much of this coordination originates or is facilitated through the MCRPC Transportation Advisory Committee, a group focused on coordination between public transit, social service agencies with transportation programs and advocacy agencies representing groups with specific transportation needs.

The public providers are Connect Transit in the urban area, and SHOW BUS for rural public transit. Because the Connect Transit charter limits it to service only within the incorporated areas of Bloomington and Normal, there are areas within the MPA in which SHOW BUS can provide service. These agencies are in an ongoing conversation regarding opportunities to improve services through coordination and cooperation.

Occasionally non-profit program providers elect to rely on the public transit agencies to operate their transportation programs, which in some instances they must provide under contract terms with state or federal funders. As an example, the Advocate BroMenn Adult Day program, which had been using IDOT-sourced vehicles to operate its program in conjunction with Connect Transit paratransit, has in recent years contracted with SHOW BUS to operate its program. This has allowed the program to expand its catchment area throughout McLean County and this expanded the number of clients it can serve. As this contract was initiated, IDOT vehicles awarded to Advocate were made available to SHOW BUS to facilitate program delivery.

In another instance, the YWCA of McLean County had used IDOT vehicles in its Job Access-Reverse Commute (JARC) program, and later in taking on a non-emergency medical transport program called Medivan, having received one of the first New Freedom grants in the state. When the various section 5310 programs were consolidated, IDOT elected to focus such funding on the Consolidated Vehicle Purchase program and to end funding for operations. For the YWCA, this led to several years of running Medivan at a loss, circumstances which became unsustainable. The operation of the program was turned over to Connect Transit, and is now managed through Connect Mobility.

This page intentionally left blank.

Connect Transit is the public transit provider for the Bloomington-Normal urbanized area. Due to the terms of its charter, the service area is limited to the incorporation boundaries of the City of Bloomington and the Town of Normal.

Connect Transit operates fourteen fixed routes in the service area, plus the Redbird Express, which provides services tailored to the Illinois State University campus and related areas. Routes are served by two primary transfer centers, at Uptown Station in Normal, and in Downtown Bloomington, and a third transfer point at College Hills Mall. Transfer opportunities are available at other locations where certain routes intersect. A guide to the system is available on the Connect Transit website at https://www.connect-transit.com/routes/routes_and_maps.asp.

Connect Transit and several of the university-community college institutions have established universal access for students, faculty and staff at Illinois State University, Heartland Community College and Lincoln College. This arrangement requires that eligible persons simply show a valid I.D. to ride the system.

Service frequency varies among the fixed routes, with the central and most traveled routes operating at fifteen-minute intervals at during some periods of the day. On other routes, service intervals may be as long as one hour.

Connect Transit is currently implementing its "Better Bus Stops" initiative, in which the transit system and the local municipalities are cooperating in identifying and prioritizing bus stop locations throughout the system which require infrastructure installation to be accessible for riders. A number of stops have been modified in this initiative, additional stops are identified for action, and discussion continues on the criteria for prioritizing bus stops for new infrastructure.

Connect Mobility is the paratransit element of the Connect Transit service. Mobility provides demand response service to qualified riders. Prospective riders undergo an eligibility review. The regular Mobility service operates within three-quarters of a mile on either side of the fixed routes. Premium services extend Mobility service to within 1.25 miles on either side of fixed routes.

CAPITAL PROJECTS AND FUNDING PROJECTS

Budget for FY2020:					
Project	Description	Action/Comments	Funding Source		Cost
Bus Stop Infrastructure Improvements		Occur through 2020	Local	\$105,000	\$105,000
Maintenance Rehab	Install solar arrays and charging stations maintenance garage	Occur through 2020	FTA 5339	\$250,000	\$1,200,000
			IDOT Debt Service	\$780,000	
			Local	\$170,000	
Customer Service Center - Uptown Station	Construct a Customer Service Center in Uptown Station	Occur through 2020	FTA 5307	\$87,500	\$250,000
			IDOT Debt Service	\$162,500	
			Local	\$0	
Maintenance Rehab	Install showers in Maintenance Garage	Occur through 2020	FTA 5307	\$80,000	\$100,000
			IDOT	\$0	
			Local	\$20,000	
Administration HVAC	Replace HVAC System	Occur through 2020	FTA 5307	\$70,000	\$200,000
			IDOT Debt Service	\$130,000	
			Local	\$0	
Service Vehicle - Maintenance Truck	Replace Service Truck	Occur through 2020	FTA 5307	\$4,800	\$24,000
			IDOT Debt Service	\$15,600	
			Local	\$3,600	
Service Vehicle	Replace Relief Vehicles	Occur through 2020	FTA 5307	\$20,000	\$100,000
			IDOT Debt Service	\$65,000	
			Local	\$15,000	
				FTA 5307	\$262,300
				FTA 5339	\$250,000
				Local	\$313,600
				IDOT DS	\$1,153,100
				Total Cost	\$1,979,000

Budget for FY2021:					
Project	Description	Action/Comments	Funding Source		Cost
Bus Stop Infrastructure Improvements		Occur through 2021	FTA 5307	\$0	\$187,000
			IDOT Debt Service	\$121,550	
			Local	\$65,450	
Replacement Electric Buses	Purchase (4) electric buses	Occur through 2021	FTA 5339	\$1,400,000	\$4,000,000
			IDOT Debt Service	\$2,600,000	
			Local	\$0	
Mid-Life Overhaul - Fixed Route Buses	Overhaul (5) fixed route buses	Occur through 2021	FTA 5307	\$90,000	\$450,000
			IDOT Debt Service	\$292,500	
			Local	\$67,500

SHOW BUS

Rural Public Transportation

SHOW BUS offers general public transportation to persons of all ages and income levels in rural and small urban areas in six central Illinois counties: DeWitt, Ford, Iroquois, Livingston, Macon and McLean. For FY 2017, SHOW BUS projected nearly 130,000 passenger boardings.

Core Service Area

County Served	Square Mileage	Population
DeWitt	398	16,561
Ford	486	14,081
Iroquois	1,117	29,718
Livingston	1,044	38,950
Macon (rural only)	581	18,000
McLean (rural only)	1,183	40,465

Services Provided Outside the Core Service Area

SHOW BUS has taken on extensive service commitments beyond the core service area. Under separate contract, SHOW BUS provides rural service in Kankakee County. Ford, Iroquois, Kankakee, Livingston and McLean counties combine the rural HSTP Region 6, for which SHOW BUS is the sole public rural provider. Recently, SHOW BUS has added service in Logan and Mason counties, creating a nine-county service area that extends from the Indiana state line south of Chicago to the Illinois River southwest of Havana and spanning nearly two hundred miles.

SHOW BUS participates in **McLean County's** Transportation Advisory Committee which meets monthly and includes representatives from the following entities, some of which may receive Federal assistance for passenger transportation: Bloomington-Normal's Connect Transit, Illinois Department of Human Services, Life Center for Independent Living (LIFE-CIL), Advocate BroMenn Adult Day Services, Marc First, Faith in Action, McLean County Regional Planning Commission, East Central Illinois Area Agency on Aging (ECIAAA) and the YWCA of McLean County. The committee explores transportation needs, emphasizing coordination of services and review of any transportation gaps.

Since its inception in 2009, SHOW BUS has played a central role on the Region 6 HSTP Joint Committee, leading the regional effort supporting rural public transit and the thoughtful coordination of rural and urban public transit services.

Operating funds come from the Illinois Department of Transportation (Section 5311 of the Federal Transit Act, as amended), East Central Illinois Area Agency on Aging (Older Americans Act funds in part), units of local government, churches, civic groups, businesses, individuals and passenger donations, fees and contracts. Capital funds come from Section 5311, Section 5310 and private sources.

Since 2001, SHOW BUS has participated in the Administration of Aging Model State Performance Outcomes Measurement System Project, and uses project results in its planning strategy. Participation has included rider surveys.

From 2001 to 2006, SHOW BUS participated in the Administration on Aging's Model State Performance Outcomes Measurement System Project (POMP). The project studied client satisfaction and needs over a broad spectrum of services. SHOW BUS, as a participant, received annual reports summarizing client comments and findings. The results became part of the planning strategy for SHOW BUS.

In January, 2007, with the technical assistance of IRTAC, SHOW BUS began a system wide survey of transportation needs. Over 700 surveys were sent to social service agencies, transportation providers, medical providers, churches and governmental agencies. A second wave of surveys involved community riders. In March of 2008, public meetings were held in communities in the Ford, Iroquois, Livingston and McLean Counties with populations over 1,500. Some of those meetings resulted in further interest in the county based transportation committees. As mentioned previously, planning in DeWitt County and Macon County followed the "ICCT" process as implemented by IRTAC.

As noted in various sections of the FY 2020 application for §5311 funding:

"SHOW BUS participates in McLean County's Transportation Advisory Council which meets monthly/quarterly and includes representatives from the following entities, some of which may receive Federal assistance for passenger transportation: Bloomington-Normal's Connect Transit, Illinois Department of Human Services, Life Center for Independent Living (LIFE-CIL), Homes of Hope, Advocate BroMenn Adult Day Services, Marc First, Faith in Action, McLean County Regional Planning Commission, East Central Illinois Area Agency on Aging (ECIAAA) and YWCA. The council explores transportation needs, emphasizing coordination of services and review of any transportation gaps.

SHOW BUS also participates in the United Way of McLean County's Executive Council, which is made up of executives from thirty area social service agencies, some of which may receive Federal transportation assistance for passenger transportation.

In Livingston County, SHOW BUS participates in a Transportation Committee hosted by LIFE-CIL and Futures. The committee has similar aims as McLean County's Transportation

Advisory Council and involves representatives from the local hospital (St. James), Livingston County Public Health Department, LIFE-CIL, Futures and Mosaic (two entities serving individuals with disabilities), Institute for Human Resources (a mental health center), local taxi services and local governmental representatives. Some of these entities may receive Federal assistance for passenger transportation.

In DeWitt County, SHOW BUS participates in a monthly meeting of representatives from local social service agencies and other interested partners to share information and to coordinate service efforts. Participating entities include Friendship Senior Center, University of Illinois Extension, DeWitt County Human Resource Center (serving individuals with disabilities), Faith in Action, DeWitt County Housing Authority, Community Action, Liberty Village and Farmer City Rehab (both nursing homes) and United Way. Some of these entities may receive Federal assistance for passenger transportation.

In Ford County, the Ford County Network Panel involving such entities as Ford County Public Health Department, Community Resources and Counseling Center, local school and governmental officials holds monthly meetings to review transportation needs. Some of these entities may receive Federal assistance for passenger transportation.

In Iroquois County, the Iroquois County Transportation Committee, made up of such social service agencies as Iroquois County Public Health Department, Iroquois Mental Health Center, Options, Catholic Charities and the Watseka Senior Center, the Iroquois Memorial Hospital and governmental entities, has been holding monthly meetings since May, 2009. Some of these entities may receive Federal assistance for passenger transportation."

"SHOW BUS has been active in the Region Six and Region Eight Human Services Transportation Plan (HSTP), with the SHOW BUS Director acting as Chair of the Technical Committee in Region Six."

"SHOW BUS is included in McLean County's TIP annually. As indicated above, SHOW BUS participates in various transportation related organizations that are all open to public participation. Through county-based transportation committees, information is funneled to the HSTPs 6 and 8 in order to be included in those plans. In addition, SHOW BUS has maintained relationships with various county boards and township, village and city officials in the relevant counties."

"This service is made available in DeWitt, Ford, Iroquois, Livingston, Logan, Macon, Mason & McLean Counties by funding through the Illinois Department of Transportation (Sec. 5309, 5310, 5311 & 5339 of the Federal Transit Act, as amended), the Downstate Operating Assistance Program and the following: United Way and community funds, units of local government, churches, civic groups, businesses, individuals and passenger donations, fees and contracts."

Section 5310 Transportation Providers Public and Social Service Transit Programs

UPDATE PENDING

The Bloomington-Normal urbanized area is served by two public transit providers and several agencies and institutions that provide transportation services to their program recipients and/or the general public. There is continuing cooperation between the public providers and the agencies, with many of the latter relying on the public transit agencies to supplement their transportation resources. Much of this coordination originates or is facilitated through the MCRPC Transportation Advisory Committee, an advisory committee to the Commission focused on coordination between public transit, social service agencies with transportation programs and advocacy agencies representing groups with specific transportation needs.

The public providers are Connect Transit in the urban area, and SHOW BUS in rural public transit. Because the Connect Transit charter limits it to service only within the incorporated areas of Bloomington and Normal, there are areas within the metropolitan planning area in which SHOW BUS can provide service. The public transit agencies engage in ongoing conversations regarding opportunities to improve services through coordination and cooperation.

Occasionally non-profit program providers elect to rely on the public transit agencies to operate their transportation programs, which in some instances they must provide under contract terms with state or federal funders. As an example, the Advocate BroMenn Adult Day program, which had been using IDOT-sourced vehicles to operate its program in conjunction with Connect Transit paratransit, has in recent years contracted with SHOW BUS to operate its program. This has allowed the program to expand its catchment area throughout McLean County and this expanded the number of clients it can serve. As this contract was initiated, IDOT vehicles awarded to Advocate were made available to SHOW BUS to facilitate program delivery.

In another instance, the YWCA of McLean County had used IDOT vehicles in its Wheels-to-Work program, and later in providing non-emergency medical transport in the Medivan program, having received one of the first New Freedom grants in the state. When the various section 5310 programs were consolidated, IDOT elected to focus such funding on the Consolidated Vehicle Purchase program and

to end funding for program operations. For the YWCA, this led to several years of running Medivan at a loss, met through its foundation, circumstances which became unsustainable. The operation of the program was turned over to Connect Transit, and is now managed through Connect Mobility.

Several non-profit agencies in the community operate transportation programs, some using 5310-funded vehicles. Although past 5310 recipient agencies have provided services to the public as well as agency clients, that arrangement is now less common. For the most part, these agencies focus their attention on providing transportation resources to their agency clients,

Advocate BroMenn Adult Day Services

Advocate BroMenn Adult Day Services operates under contracts with the Illinois Department of Aging and the Illinois Department of Human Services Department of Rehabilitation to provide transportation services to and from the service center for approved clients.

In February 2014, Advocate BroMenn Medical Center Adult Day Services begin contracting with SHOW BUS to provide door-to-door transportation in accessible vehicles according to client attendance schedules and plans of care. Advocate BroMenn Adult Day Services continues to independently provide transportation between Advocate BroMenn facilities, as well as social/recreational trips for program participants.

Advocate BroMenn Adult Day Service collaborates with Show Bus to transport clients to the facility. Show Bus is contracted to provide round trip service into the Advocate BroMenn Adult Day Service which has allowed the service to expand throughout McLean County. Show Bus provides transportation to approximately 34 ADS clients each month with an average of 45 trips per day. Advocate BroMenn Adult Day Service agrees to lease three Medium Duty Buses to Show Bus to assist in completing these transportation routes. Show Bus charges Advocate BroMenn a set monthly rate for the transportation agreement.

Adult Day Services also coordinates transportation with Connect Transit and the YWCA of McLean County Senior Services program for participants unable to be accommodated with the provided transportation service per the participant's request. SHOW BUS is the contracted provider for transportation within the service area as this allows access to the program for both local and rural participants.

SHOW BUS also provides coordinated services for those participants outside of McLean County as needed.

Marcfirst

Since 1955, Marcfirst has been connecting people with developmental disabilities to their community through a lifetime of meaningful supports. Services currently provided include early intervention and pediatric therapy programs for children with developmental disabilities and delays. High school students with disabilities are given the opportunity to participate in our transition program. For adults, residential, developmental training and supported employment services are provided. Each year, Marcfirst supports over 700 children and adults in McLean County. The transportation services we provide play a vital role in achieving our mission. For many of the adults we support, independent use of public transportation is not an option due to physical and/or intellectual disabilities. Our fleet of vehicles gives individuals with disabilities opportunities to access their community for work, education, medical services and recreation locally and throughout the State.

From March of 2016 through March of 2017, we provided over 16,000 trips to adults and high school students who participate in our various programs. Nearly 100,000 miles were logged on our vehicles taking people to work, appointments and recreational activities. We also put into service 2 new vehicles acquired from IDOT to enhance our transportation services.

YWCA of McLean County

Effective June 30, 2017, the YWCA of McLean County ceased operation of the Medivan non-emergency medical transportation service. As of July 1, 2017, the services Medivan provided were incorporated into the Connect Mobility paratransit service of Connect Transit, the public transportation system for the Bloomington – Normal Urbanized Area. The YWCA will continue to provide service to destinations within a 60-mile radius of Bloomington – Normal but outside of McLean County.

Appendices

Appendix 1

Title VI Complaint Form For Discrimination Claim

The Transportation Policy Committee has approved the form on pages A-3 through A-5 below for the reporting of discrimination claims to MCRPC. The Policy Committee and the McLean County Regional Planning Commission are dedicated to open access to MCRPC for all.

With future action on the Title VI Plan, this form may be revised. New information and forms will be amended into the TIP appendix, and available on the MCRPC website.

This page intentionally left blank.

Title VI Complaint Form

McLean County Regional Planning Commission
115 East Washington Street, Suite M-103
Bloomington, Illinois, 61701

Please contact our office should you need assistance
with submitting your complaint.

The McLean County Regional Planning Commission (MCRPC) is committed to ensuring that no person is excluded from participation in or denied the benefit of services it provides on the basis of race, color, or national origin, as provided by Title VI of the Civil Rights Act of 1964, as amended, and related federal legislation.

Title VI complaints must be filed within 180 days from the date of the alleged discrimination by MCRPC. **To file a complaint this completed form must be returned to the McLean County Regional Planning Commission, 115 East Washington Street, Suite M-103, Bloomington, Illinois, 61701. Faxed or e-mailed forms are not accepted.** Hand delivery is recommended to ensure that the complaint is received and filed within the statutory deadline. Delivery services providing delivery confirmation are also acceptable.

Appendix 2

Federal Transportation Funding History

As noted in the individual project descriptions in the TIP report, historically Bloomington, Normal and McLean County have relied on the use of Federal transportation funding for major local projects.

Appendix 2

Appendix 3

MCRPC Transportation Planning and Programming Process

Location: <http://www.mcplan.org>

Following are the primary work products of the MCRPC transportation planning program. Current documents are available for review at www.mcplan.org.

1. Unified Work Program (UWP)

MPO tasks and products are clearly outlined including sufficient detail of who will perform transportation work, the schedule for completing work, the resulting products, proposed funding and a summary of the total amounts of federal and matching funds. Updated annually.

Title: Unified Work Program FY 2020, July 1, 2019 – June 30, 2020.

Date Approved: June 28, 2019

2. Long Range Transportation Plan (LRTP)

Details how the urbanized area transportation system will evolve over the next 25 years. The LRTP covers the Bloomington-Normal urbanized area as delineated by the 2010 U.S. Census and considers a 25-year Metropolitan Planning Area (MPA), which encompasses land outside the urbanized area that is likely to be included in the urbanized area between the years 2015 and 2045. The LRTP looks at the projected evolution of pedestrian, bicycle, bus transit, automobile, rail, and air travel over the next 25 years, addresses the nine federal planning factors, is financially constrained, and includes funding for maintenance and operation of the transportation system. This planning process includes all relevant stakeholders including, but not limited to, environmental, state, other transportation, historical, local land use, economic development agencies, and the general public. Available for 45-day public comment period before approval. Updated every five (5) years.

Title: Transportation: A Changing Climate, Long Range Metropolitan Transportation Plan 2045

Date Approved: November 30, 2017.

3. Transportation Improvement Program (TIP)

Documentation of proposed projects for a five-year fiscal period so that project funding can be secured. Any local project that solicits federal or state monies must be in the TIP in order to be considered for such funding. The TIP is consistent with the LRTP, financially constrained, and developed cooperatively with member agencies including state and local transit operators. Submitted to IDOT for adoption along with self-certification. Available for 30-day public comment period before approval. Updated every year.

Title: Transportation Improvement Program FY 2019-2023

Date Approved: July 26, 2018

Title: Transportation Improvement Program FY 2020-2024

Date Approved: June 28, 2019

4. Title VI Plan

Documents procedures to address complaints related to Title VI of the Civil Rights Act of 1964, American Disabilities Act, and related statutes in compliance with federal regulation. This includes the identification of low-income and minority populations within the planning area to consider effects of the MPO planning process. Available for 45-day public comment period before approval. Updated every five (5) years.

Title: MCRPC Title VI Plan

Date Approved: September 21, 2018

The Title VI Plan incorporates:

Public Participation Plan (PPP)

Documents how the MPO involves the public in different transportation planning processes and what staff undertake to gather, process, and utilize public input when creating plans and how to consider the needs of the traditionally underserved, such as low-income and minority households. Available for 30-day public comment period before approval. Periodically reviewed and updated.

Title: MCRPC Public Participation Plan

Limited English Proficiency Assistance Plan (LEPP)

Documents how the MPO engages members of the public who experience difficulties in speaking or writing in English, or understanding written or verbal communications in English. The plan focuses on partnerships and outreach techniques and best practices for involving LEP persons in all phases of transportation planning. Available for 30-day public comment period before approval. Periodically reviewed and updated in consultation.

Title: MCRPC Transportation Access Language Assistance Plan

6. Federally Obligated Projects

Listing of obligated transportation projects for which federal funds have been given in the preceding year, including bicycle and pedestrian projects. Updated every year.

Title: Annual Listing of Federally Obligated Projects, Federal Fiscal Year 2018

Date Approved: September 21, 2018

Title: Annual Listing of Federally Obligated Projects, Federal Fiscal Year 2019

Date Approved: anticipated September 27, 2019

MPO Self-Certification – to be renewed June 28, 2019

From the Code of Federal Regulations (CFR) 450.334 Self-certifications and Federal certifications: For all MPAs, concurrent with the submittal of the entire proposed TIP to the FHWA and the FTA as part of the STIP approval, the State and the MPO shall certify at least every four years that the metropolitan transportation planning process is being carried out in accordance with all applicable requirements including:

Highway and Public Transportation

23 U.S.C. 134 – Highways, Sec. 134. Metropolitan Planning

This section describes the legal framework for metropolitan planning areas (MPAs) and the conduct of the metropolitan transportation planning processes, development of transportation plans, programs, and activities to encourage and promote the safe and efficient management, operation and development of transportation systems.

49 U.S.C. 53 – Public Transportation, Sec. 5303. Metropolitan Transportation Planning

This section provides the legal framework to encourage and promote the safe and efficient management, operation, and development of surface transportation systems that will serve the mobility needs of people and freight and foster economic growth and development within and between States and urbanized areas. This section also encourages the continued improvement and evolution of the metropolitan and statewide transportation planning processes.

23 CFR part 450.334 (a), Self-certifications and Federal certifications

Regulations to ensure the State and MPAs certify at least every four years that the metropolitan planning process is being carried out in accordance with all applicable requirements.

Clean Air Act and Related Regulation

Clean Air Act (CAA)

The law that defines the Environmental Protection Agency's responsibilities for protecting and improving the nation's air quality and the stratospheric ozone layer. The last major change in the law, as amended by the Clean Air Act Amendments of 1990, was enacted by Congress in 1990.

40 CFR part 93 – Determining Conformity of Federal Action State or Federal

Implementation Plans

This section sets forth policy, criteria, and procedures for demonstrating and assuring conformity of such activities to an applicable implementation plan developed pursuant to the CAA. This section also provides procedures for air quality nonattainment and maintenance to implement requirements with respect to the conformity of transportation plans, programs, and projects which are developed, funded, or approved by the United States Department of Transportation (USDOT), and by MPOs or other recipients of highway or transit funds.

Civil Rights Legislation and Regulation

“No person in the United States shall, on the ground of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.”

Title VI of the Civil Rights Act of 1964 outlawed discrimination in the conduct of all federal activities. Subsequent laws and Presidential Orders added handicap, sex, age, and income status to the criteria for which discrimination is prohibited.

Executive Order 12898 directs Federal agencies to make Environmental Justice part of their missions by identifying and addressing disproportionately high and adverse human health or environmental effects of their programs, policies, and activities on minority and low-income populations.

Executive Order 13166 requires Federal agencies to examine the services they provide, identify any need for services to those with limited English proficiency (LEP), and develop and implement a system to provide those services so LEP persons can have meaningful access to them. Federal agencies are required to ensure that recipients of Federal financial assistance provide meaningful access to LEP applicants and beneficiaries.

49 USC 5332

This section states a person may not be excluded from participating in, denied a benefit of, or discriminated against under, a project, program, or activity receiving financial assistance under this chapter because of race, color, religion, national origin, sex, disability, or age.

Federal-Aid Highway Act, 23 CFR part 230

This section provides regulatory standards for the implementation of an equal employment opportunity program on federal and federal-aid highway construction contracts.

Fixing America's Surface Transportation (FAST) Act, Section 1101 (b) of Pub. L. 112-141 and 49 CFR Part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects.

The American with Disabilities Act (ADA) of 1990 (42 U.S.C. 12101 et seq)

This act prohibits discrimination against people with disabilities in employment, transportation, public accommodation, communications, and governmental activities. It prohibits the discrimination on the basis of disability by public accommodations and in commercial facilities. The following regulations refer to non-discrimination and its applicability in transportation:

49 CFR part 27 specifies nondiscrimination on the basis of disability in programs or activities receiving federal financial assistance;

49 CFR part 37 covers transportation services for individuals with disabilities; and

49 CFR part 38 covers ADA accessibility specifications for transportation vehicles.

The Older Americans Act, as amended (42 USC 6101)

This act prohibits discrimination on the basis of age in programs or activities receiving federal financial assistance.

23 USC 324

This section prohibits discrimination based on gender.

Rehabilitation Act of 1973 (29 USC 794, §504) and 49 CFR part 27

This section prohibits discrimination against individuals with disabilities.

Appendix 4

Keeping the TIP Current

Amendments

MCRPC has adopted a process for the management of revisions made to the TIP in the course of its first fiscal year, to accurately and promptly reflect changes in project scope and funding. The defining concepts are discussed on pages 1 through 4 of this report. Generally, substantive alterations in a project consisting of changes in project area or the nature of work to be done, or changes to the amount and/or sources of funding will be incorporated through the amendment process. Amendments require a vote by the Technical Committee to forward the alteration to the Policy Committee for action.

As noted above, in situations where an amendment must be made within a limited amount of time, MCRPC staff will make every reasonable effort to accommodate the agency.

Amendments are posted to the MCRPC TIP page upon approval by the Policy Committee.

Administrative Modifications

Administrative modifications to the TIP will be published on the MCRPC website, www.mcplan.org.

Advance Construction Projects and Status Modifications, pursuant to IDOT Advanced Construction Notifications

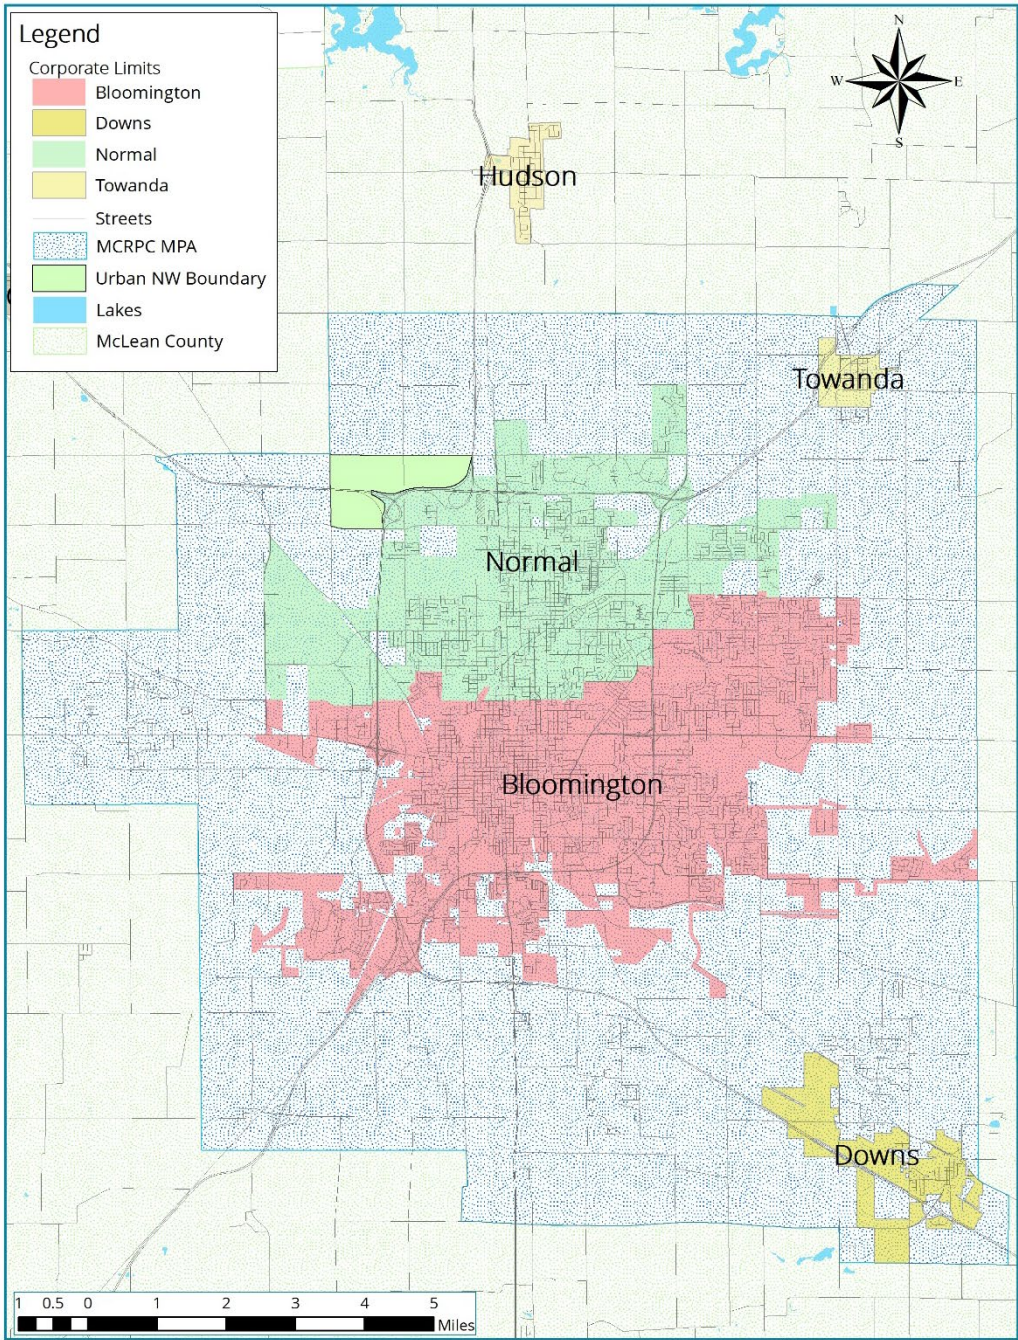

During the course of the first fiscal year for which Transportation Improvement Program is approved, any changes in advanced construction status for projects included in the TIP will be added to an updated version of this Appendix, reflecting administrative modifications made to the current TIP pursuant to status changes made by the Illinois Department of Transportation Office of Planning and Programming. Use the link above to access the web page listing, or contact Transportation Planner Jennifer Sicks by email at jsicks@mcplan.org, or by telephone at 309-828-4331.

Appendix 5

Metropolitan Planning Area (MPA) Boundary

In compliance with the provisions of the Transportation Equity Act for the 21st Century the McLean County Regional Planning Commission Transportation Technical and Policy Committees adopted the Metropolitan Planning Area Boundary based on Census 2000. The McLean County Regional Planning Commission Transportation Technical and Policy Committees in FY 2003 proposed a revised Metropolitan Planning Area Boundary. The

boundary was further revised based on Census 2010, and a minor expansion made to include neighborhoods along Illinois Route 9 west of Bloomington. The map illustrates the revised boundaries of the planning area for which the Metropolitan Planning Organization has responsibility for transportation planning, pursuant to the provisions of the FAST Act. The planning area is approximate 143 square miles in area, or 12% of the County's total area. Municipal areas within the planning area include the City of Bloomington, the Town of Normal, and the Villages of Downs and Towanda.

Delineation of metropolitan planning boundary:

- Beginning at the intersection of 1200 E Road (County Highway 39, Ropp Road) and 2000 N Road, the boundary extends east 9.35 miles along 2000N Rd to the intersection of 2000 N and 2100 E
- At this point the boundary runs south along 2100E 1 mile to 1900 N Rd (County Highway 14) and continues 1.5 miles along the section line to the intersection of 2100E and 1750N.
- From this point, the boundary continues south 5.5 miles to 1200N (County Highway 28; Ireland Grove Road), and extends 4.35 miles further south from 1200N to US. 150
- The boundary then runs .3 mile southeast along U.S. 150, to the eastern edge of Parcel I.D. No. 29-03-100-006; from this point the boundary runs south 1.08 miles from U.S. 150 to 650N
- The boundary then runs west 2.25 miles along and beyond 650N to 1900E (County Highway 29; Towanda-Barnes Road)
- At 1900E the boundary runs north .5 mile to 700N (County Highway 36)
- From the intersection of 1900E and 700N, the boundary runs west 5.5 miles along 700N to its intersection with 1375E
- From the intersection of 700N and 1375E the boundary runs 1.09 miles north to the southern boundary of Bloomington township
- From that point the boundary runs 3.85 miles west; it then runs 4.04 miles north to Six Points Road
- From Six Points Road the boundary continues north along 1000E to West Washington Street.
- The boundary extends west along Washington Street to County Highway 43, Covell Road.
- The boundary continues north along County Highway 43 to a point 150 feet north of 1650 N,
And continues east to 975E
- On 975E the boundary runs north for 3.39 miles to Northtown Road. On Northtown Road the boundary runs east 2.47 miles to 1200E Road.
- On 1200E Rd (County Highway 39, Ropp Road), the boundary continues north for 2.05 miles to 2000N Road.

Appendix 6

Transportation Improvement Program (TIP) Selection Process

In order to facilitate TIP project selection, the McLean County Regional Planning Commission Transportation Technical and Policy Committees have adopted the following procedure regarding TIP selection for projects that use any form of federal funding.

In FY 2018 the Technical Committee created an evaluation and scoring process for such projects programmed by the local governments. Generally, such projects are few in number in each program year for the local jurisdictions, although they may represent a notable percentage of the total project costs for those jurisdictions. See the main TIP report, which includes the completed scoring for the federal projects in the FY 2020 – 2024 TIP.

In accordance with the FAST Act and earlier legislation, the five-year TIP is financially constrained. That is, all projects in the first-year element have verified funding sources, and the projects in the second through fifth years have "reasonably available" funding sources. To provide a complete picture of the program not only as it is, but also as the local governments would prefer it to be, the TIP includes an inventory of "illustrative" projects, which are not currently fiscally constrained.

Project implementation priority is given to the first year of the TIP. However, special circumstances may arise necessitating moving a project originally designated for a later year forward to the first year. When such situations arise, it is preferable that the Transportation Policy and Technical Committees be apprised of the change and act to approve it as a TIP amendment. In instances where such a revision must be made on an emergency basis, it will be processed by staff with no action required of the Technical or Policy Committees. MPO staff at the regularly scheduled committee meetings will advise the Technical and Policy Committees of the project advancement, and provide for a ratifying TIP amendment if required.

This page intentionally left blank.

Appendix 7

Public Involvement Process

In compliance with the provisions of the successive iterations of federal legislation, the McLean County Regional Planning Commission Transportation Technical and Policy Committees have adopted the following Public Involvement Process. Pursuant to the requirements of the FAST Act, the Technical and Policy Committees have promulgated the McLean County Transportation Public Participation Plan, which constitutes the public involvement process to be employed in future transportation planning activities. The text of the participation plan as adopted in 2007 is included in this Appendix.

The public participation plan below remains in effect pending the adoption of a revised and updated plan.

Public Notice

Announcements and agendas for all Technical and Policy Committee meetings will be sent to the local news media. Meetings of the Committees will be open to the general public. A mailing list will be established so that organizations or interested citizens can receive meeting announcements and agendas.

Transportation Improvements Program (TIP)

Members of the Technical Committee will be notified of the timetable for TIP preparation by agenda item. Project listings can then be submitted to the Technical Committee Chairman from which a draft TIP will be prepared.

The draft TIP will be reviewed by the members of the Technical Committee and will then be made available to the general public for their review and comment. The public review and comment period will be thirty days. Comments during the thirty-day period should be submitted in writing.

One public hearing for the TIP will be held prior to its adoption. A fourteen-day notice will be given prior to the public hearing. Similarly, a public hearing will be held for TIP amendments meeting the criteria of a Major Transportation Investment.

Long Range Transportation Plan

The plan will be available to the general public for a 45-day review and comment period. At this time, written comments will be accepted. A public hearing will be held for the Long Range Transportation Plan prior to its adoption. Fourteen day prior notice of the public hearing will be given.

Public Comments

Public comments on the TIP, the Long Range Transportation Plan, and the Public Participation Statement will be reviewed by the Technical and Policy Committees. All public review and comment periods and public hearings will be advertised.

Public Participation Statement

There will be a forty-five day review and comment period held for the Public Participation Statement.

MCRPC Public Participation Plan

The McLean County Regional Planning Commission, acting as the metropolitan planning organization [MPO] for the Bloomington-Normal, Illinois urbanized area, and through the Transportation Policy Committee, adopts the following Plan to promote public involvement in transportation planning.

The intent of the MCRPC Public Participation Plan is to provide a process for meaningful public input into transportation decision-making. This process includes offering reasonable opportunities for the public to be informed and involved in the development of transportation plans and programs in the metropolitan area. Proactive outreach to educate and inform the public about transportation issues and options, and to elicit input from the public on transportation issues, is integral to the process. Consistent with the principles underlying SAFETEA-LU, outreach is conducted early in the planning process, and is designed to ensure participation by traditionally underserved populations. The metropolitan transportation planning area refers to the City of Bloomington, the Town of Normal, and the adjoining portions of McLean County anticipated to be developed over the next 20-year period, and as defined in the Long Range Transportation Plan.

Therefore, the McLean County Regional Planning Commission shall provide a reasonable opportunity to comment on proposed plans for citizens, affected public agencies, representatives of public transportation employees, freight shippers, providers of freight transportation services, private providers of transportation, representatives of users of public transportation, representatives of users of pedestrian and bicycle transportation facilities, representatives of persons with disabilities, and other interested parties.

Components or objectives of the existing public involvement process followed by the McLean County Regional Planning Commission have been revised to incorporate elements required of a Participation Plan process by 23 CFR Part 450.316 pursuant to Safe, Accountable, Flexible, Efficient Transportation Equity Act: a Legacy for Users (SAFETEA-LU), (Public Law 109-59, August 10, 2005). Sections A thru C of the Participation Plan address the participation process. Section D addresses the agency consultation process required by SAFETEA-LU of the metropolitan transportation plans and programs.

Section A: Participation Plan Elements

1. Public notification will be provided not fewer than 15 days nor more than 30 days in advance of consideration of action by the Policy Committee of the McLean County Regional Planning Commission on proposed long range [metropolitan] transportation plan updates, transportation improvement programs, and amendments to these planning documents.
 - a. To provide time for full public review and comment on the draft participation plan, and pursuant to 23 CFR §450.316(a)(3), public notification will be provided no less than 45 days in advance of consideration of action on this document by the Policy Committee of the McLean County Regional Planning Commission.
 - b. The draft Transportation Improvement Program [TIP] will be reviewed by the members of the Technical Committee and will be made available to the general public, as specified below, for review and comment. Pursuant to 23 CFR 450.316(b)(1)(iv), the public review and comment period will extend a minimum of 30 days. Comments during the thirty-day period should be submitted in writing. One public hearing for the TIP will be held prior to its adoption, during which public comments will also be received. TIP amendments shall be considered and acted upon in the course of public meetings of the Technical and Policy Committees, as required pursuant to 23 CFR 450.104. Events defined as requiring an amendment to the TIP include major changes to a project, including the addition or deletion of a project or a major change in project cost, project/phase initiation dates, or a major change in design concept or design scope.
 - c. The Long Range Transportation Plan will be available to the general public for a 45 day review and comment period. A public hearing on the Long Range Transportation Plan will be held prior to its adoption.
2. A meeting notice will be provided electronically to local news media, including local public television as applicable, one week in advance of each regular Policy Committee and Technical Committee meeting. Reasonable access to available information about MPO sponsored transportation studies in the metropolitan area will also be provided.
3. Available resources, including web-based mapping, published maps and illustrations and other graphic data will be used by the MPO to visually convey information related to and improving understanding of metropolitan transportation plans and programs.
4. Public information related to transportation plans and programs and meeting notices of the McLean County Regional Planning Commission will be provided electronically on the World Wide Web, including draft and final versions of the Participation Plan. The website will also provide meeting agendas and minutes, information on the purpose, programs and structure of the Regional Planning

Commission, information on MPO planning projects and studies, and contact information for MPO staff.

5. Public meetings sponsored by the McLean County Regional Planning Commission will be held at convenient locations and times. A citizen information period will be provided during each regular MPO meeting.
6. Public input received during the development of the metropolitan transportation plan and the transportation improvement program will be given consideration by the MPO. Significant public comments received will be reported by staff to the Policy Committee and the Technical Committee.
7. Outreach efforts seeking input on metropolitan transportation plans and programs from low income and minority households traditionally underserved by existing transportation systems will be continued and documented. All public participation activities of the McLean County Regional Planning Commission shall be conducted to permit involvement by persons with disabilities, and by persons with limited English proficiency, upon request.
8. Public notices advising citizens in the metropolitan area of the availability of draft transportation plans, transportation improvement programs and conformity reports in local public libraries will be continued. Additional opportunity for public comment will be provided if the final metropolitan transportation plan or transportation improvement program or conformity analysis differs significantly from the version initially made available for public review.
9. The implementation of the McLean County Regional Planning Commission Participation Plan will be coordinated with the statewide transportation planning public involvement and consultation processes developed, as appropriate, with agencies and officials responsible for other planning activities within the metropolitan area that are affected by transportation.
10. The overall effectiveness of procedures and strategies contained in the Participation Plan to ensure a full and open participation process will be reviewed periodically by the McLean County Regional Planning Commission.

Section B: Disposition of Significant Comments

1. When significant comments are received on the draft Long Range Transportation Plan or the Transportation Improvement Program as a result of the Participation Plan, a summary, analysis, and report on the disposition of comments shall be made as part of the final Long Range Transportation Plan and Transportation Improvement Program.

Section C: Agency Consultation on Other Planning Activities

1. As the transportation plan and the transportation improvement program are developed, the MPO shall consult, as appropriate, with agencies and officials responsible for other planning activities in the metropolitan area affected by transportation in order to coordinate planning functions to the maximum extent practicable. The McLean County Regional Planning Commission, through technical assistance and direct participation, contributes to the planning processes of its constituent governments, agencies and partners. Such contributions involve the formulation of regional and local planning and development policy, and the implementation of program and project objectives.
2. The McLean County Regional Planning Commission process for public review, participation and comment on the Transportation Improvement Program serves as the public participation process for the Bloomington-Normal Public Transit System Program of Projects.
3. The nature of the consultation shall include comparison of metropolitan plans and transportation improvement programs, as they are developed, with the plans maps, inventories, and planning documents developed by other agencies.
4. Interested parties, public and private, responsible for planned growth, economic development, environmental protection, airport operations, freight movements, land use management, natural resources, conservation, and historic preservation in Bloomington-Normal and McLean County shall be included in the planning consultation process, as appropriate. Interested parties whose early and continuous involvement shall be sought include but are not limited to affected public agencies, representatives of public transportation users and employees, freight shippers and providers of freight transportation services, private providers of transportation, representatives of users of pedestrian walkways and bicycle transportation facilities, representatives of the disabled, and citizens. Interested parties shall have access to timely information about transportation issues and decision-making processes, and to avenues for direct involvement in the transportation planning process.
5. Metropolitan transportation plans and transportation improvement programs shall be developed with consideration for governmental agencies and non-profit organizations receiving Federal assistance from a source other than the U.S. Department of Transportation for the design and delivery of non-emergency transportation services.
6. The MPO, in cooperation with the Federal Highway Administration, shall provide to all interested parties access to an annual listing of Federally Obligated Projects.

7. The MPO will consider the future development of an operations plan for consulting with other governmental agencies responsible for the development of plans affected by transportation in the metropolitan area

Section D: Public Participation Plan Evaluation

1. Pursuant to 23 CFR 450.316(a)(1)(x), the McLean County Regional Planning Commission shall conduct periodic review of public participation activities and initiatives, and shall revise or amend the Public Participation Plan as needed to enhance public participation in the transportation planning process.
2. Distribution of the McLean County Regional Planning Commission newsletter VISIONS shall be monitored, and changes in the volume distributed assessed. VISIONS is disseminated as a printed document via the U.S. Postal Service, as an electronic document distributed to an email list, and as a downloadable document posted on the Commission website (www.mcplan.org).
3. Postings to the Commission website shall be inventoried and monitored to assess completeness, timeliness and ease of access. Technology to assess frequency of website viewings shall be used to evaluate the impact of the website in providing information and participation opportunities to interested parties and the public.
4. All meeting agendas and minutes of the Transportation Technical and Policy Committees shall be made available on the Commission website. As practicable, supporting documentation cited in agendas and minutes shall also be made available through the website. Website postings relating to the Committees shall be monitored and evaluated pursuant to Section D, paragraph 3, above.
5. The McLean County Regional Planning Commission shall conduct ongoing assessment of the implementation of the Public Participation Plan elements as set forth in Section A, paragraphs 1 – 9, above.
6. In addition to the evaluation described in paragraph 5, above, evaluation criteria shall include the elements presented in Table 1, below, which shall be considered by the Regional Planning Commission and the Technical and Policy Committees in assessing the Public Participation Plan:

Tools and Measurements		
Participation Tool	Quantitative	Qualitative
Mailing Lists	<ul style="list-style-type: none"> • Number of Additions to Mailing List • Diversity of Representation • Quantity of Educational Materials Distributed 	<ul style="list-style-type: none"> • Concise and Clear Information Portrayed • Effectiveness of Newsletter • Format

Public Comments

A public hearing regarding the draft FY 2020 – 2024 Transportation Improvement Plan was held on June 21, 2019 during a scheduled meeting of the Transportation Technical Committee.

There were no members of the public present to provide comments during the June 21, 2019 public hearing. One comment was submitted in writing via email to the MCRPC Transportation Planner, and is reproduced below, followed by staff response. Some information regarding the person submitting comment has been redacted.

From: Heidi Zimmerman [REDACTED]

Subject: comments on the TIP Fy 2020-2024

Dear Ms. Sicks,

I am unable to attend the public hearing tomorrow for the Transportation Improvement Plan, but hope that my written comment will be considered:

As recent concerns over the systemic changes at Connect Transit have emerged, I would like to request that there be further consideration for the Capital projects proposed by Connect Transit in the TIP plan. Recently, the Connect Transit agency has received feedback from multiple community organizations regarding the non-ADA compliant bus stops that exist throughout the community. As I review the proposed capital projects for Connect Transit, I see that marginal amounts are devoted to the "bus stop infrastructure improvements" for each of the fiscal year budgets. It appears that local and IDOT debt service dollars can be applied to these bus stop improvements, but in FY 2020 (and beyond), many other projects receive higher funding priority, including solar panels, and a construction of an uptown customer service station.

Connect Transit staff have made it clear recently that, in order to remain financially stable, they must begin charging paratransit riders hundreds of dollars a month for services. Many of the paratransit riders may benefit from the ADA compliance upgrade of the current bus stops, given that some are forced to ride paratransit only due to the inaccessibility of the bus stops in their neighborhood. So, to that effect, I would like to see further consideration for ALL bus stops to be upgraded to be ADA compliant before other large capital projects are pursued. This will help to unburden both paratransit riders as well as tax payers and should be considered the most important priority at this time.

Best regards,

Heidi Zimmerman

Dear Ms. Zimmerman-

Thank you for your comments on the FY 2020 – 2024 Transportation Improvement Program (TIP). I am sorry that you are unable to attend the public hearing, but please be assured that your comments will be heard and incorporated into the record of the hearing. Your submission will also be included in Appendix 8 to the FY 2020 – 2024 TIP, along with any responses from the Technical Committee or other participants in the public hearing.

In addition, your comments will be conveyed to the Transportation Policy Committee, along with any considerations raised by the members of the Transportation Technical Committee, as the Policy Committee reviews the draft report for adoption during its meeting on June 28, 2019.

Consideration of your submission by the Transportation Committees does not imply that your comments will produce changes in the content of the Transportation Improvement Program, beyond inclusion in the Appendix. The Committees include representation from McLean County, the City of Bloomington, the Town of Normal, Connect Transit, the Central Illinois Regional Airport and the Illinois Department of Transportation, and Committee members are encouraged to communicate comments to their respective government or agency governing bodies for further consideration or action. Moreover, future review of public comments on the TIP report may be the foundation for amendment or administrative modification of projects included in the TIP at the time of its adoption. Please note that the introductory section of the report and several of the appendices discuss the TIP process in greater detail.

Should you have any questions about the Transportation Improvement Program or the process by which it is developed, please contact me. Thank you again for your participation in the TIP process, and for your interest in our transportation system.

Sincerely yours,
Jennifer Sicks

47741
PUBLIC NOTICE
McLean County Regional
Planning Commission
Transportation Improvement
Program FY 2020 - 2024
PUBLIC HEARING -
June 21, 2019 10:30 a.m.
Room 345,
Government Center,
115 East Washington Street,
Bloomington

The McLean County Regional Planning Commission (MCRPC), in accord with the FAST Act, has prepared a draft Transportation Improvement Program for FY 2020 - 2024. The draft document is available for public review from May 29, 2019 to June 27, 2019, inclusive, at the MCRPC office in Government Center, 115 East Washington Street, Suite M103, Bloomington, Illinois, M-F from 8:30 a.m. to 4:30 p.m., and on the MCRPC web site at www.mcplan.org. Additions to the draft proposed during the public comment period will be posted on the MCRPC website and made available at the Commission office.

In the course of the public review period and pursuant to the adopted MCRPC Public Participation Plan, MCRPC will hold a public hearing concerning the FY 2020 - 2024 Transportation Improvement Program (TIP), on June 21, 2019, at Government Center, 115 East Washington Street, Bloomington, Illinois. This is the first notice regarding this hearing. Pending the hearing, final action by the MCRPC Transportation Policy Committee is scheduled for June 28, 2019.

The Transportation Improvement Program is a five-year summary for urban area road, trail and pedestrian improvement projects and public transit projects and at minimum reflects all projects expected to utilize Federal transportation funding. It incorporates the Programs of Projects for public transit providers, including Connect Transit and SHOW BUS. If no changes to the Transportation Improvement Program are made pursuant to public comment during the public review period or the public hearing, the project and transit projects included in the draft document will constitute the Final Program of Projects. Please note that the published draft does not include projects to be pursued by the Illinois Department of Transportation, District 5. When this information is made available, it will either be incorporated into the draft, or included in the approved Transportation Improvement Plan 2020 - 2024 by amendment.

Agencies receiving Federal Transit Administration funds are required to comply with certain public participation requirements, including those specified with respect to Urbanized Area Formula Grants made pursuant to 49 USC §307. For transit providers operating in the Bloomington - Normal Metropolitan Planning Area, and represented in the Transportation Improvement Program, the Regional Planning Commission

*** Proof of Publication ***

process for public review, participation and comment on the Transportation Improvement Program serves as the public participation process regarding the program of projects for such providers. Individual providers may also conduct additional public hearings. These include but are not limited to Connect Transit and SHOW BUS.

Comments on the draft should be submitted in writing to the MCRPC during the comment period, or at the public hearing. Comments on the Transportation Improvement Program will be considered for inclusion in the final TIP, as directed by the MCRPC Transportation Policy Committee following the public hearing. Please direct questions to Jennifer Sicks, Transportation Planner, MCRPC, by mail, by telephone at 309-828-4331, or by email to jsicks@mcplan.org.

Public Notice
McLean County Regional Planning Commission
Transportation Improvement Program FY 2020 - 2024
PUBLIC HEARING - June 21, 2019 10:30 a.m.
Room 345, Government Center, 115 East Washington Street, Bloomington

The McLean County Regional Planning Commission (MCRPC), in accord with the FAST Act, has prepared a draft Transportation Improvement Program for FY 2020 - 2024. The draft document is available for public review from May 28, 2019 to June 27, 2019, inclusive, at the MCRPC office in Government Center, 115 East Washington Street, Suite M103, Bloomington, Illinois, M-F from 8:30 a.m. to 4:30 p.m., and on the MCRPC web site at www.mcrpc.org. Additions to the draft proposed during the public comment period will be posted on the MCRPC website and made available at the Commission office.

In the course of the public review period and pursuant to the adopted MCRPC Public Participation Plan, MCRPC will hold a public hearing concerning the FY 2020 - 2024 Transportation Improvement Program (TIP), on June 21, 2019, at Government Center, 115 East Washington Street, Bloomington, Illinois. This is the first notice regarding this hearing. Pending the hearing, final action by the MCRPC Transportation Policy Committee is scheduled for June 28, 2019.

The Transportation Improvement Program is a five-year summary for urban area road, trail and pedestrian improvement projects and public transit projects and at minimum reflects all projects expected to utilize Federal transportation funding. It incorporates the Programs of Projects for public transit providers, including Connect Transit and SHOW BUS. If no changes to the Transportation Improvement Program are made pursuant to public comment during the public review period or the public hearing, the project and transit projects included in the draft document will constitute the Final Program of Projects. Please note that the published draft does not include projects to be pursued by the Illinois Department of Transportation, District 5. When this information is made available, it will either be incorporated into the draft, or included in the approved Transportation Improvement Plan 2020 - 2024 by amendment.

Agencies receiving Federal Transit Administration funds are required to comply with certain public participation requirements, including those specified with respect to Urbanized Area Formula Grants made pursuant to 49 USC 5307. For transit providers operating in the Bloomington - Normal Metropolitan Planning Area, and represented in the Transportation Improvement Program, the Regional Planning Commission process for public review, participation and comment on the Transportation Improvement Program serves as the public participation process regarding the program of projects for such providers. Individual providers may also conduct additional public hearings. These include but are not limited to Connect Transit and SHOW BUS.

Comments on the draft should be submitted in writing to the MCRPC during the comment period, or at the public hearing. Comments on the Transportation Improvement Program will be considered for inclusion in the final TIP, as directed by the MCRPC Transportation Policy Committee following the public hearing. Please direct questions to Jennifer Sicks, Transportation Planner, MCRPC, by mail, by telephone at 309-829-4331, or by email to jsicks@mcrpc.org.
